FIRE CURTAINS

FIRE CURTAINS GSF KPR E | EW

GSF KPR E | EW Fire Curtains are an effective solution for protecting openings in vertical internal and external partitions to prevent the spread of fire and thermal radiation. They are used both in public buildings and other building structures. Thanks to the use of advanced fire protection technologies, these curtains provide a reliable protective barrier that meets the highest safety standards. All our fire protection products are CE marked and tested according to European standards EN 16034:2014 and EN 13241:2003+A2:2016.
